The **TETP-901** is designed to identify and test the continuity of RJ45, BNC, and F coaxial cables along with 6P2C/4P2C jacks, this multi-function cable tester tone and probe kit is the perfect kit for any Voice Data Video (VDV) professional. This kit features the following:

TEP-200 Tone Tracing Probe+:
- Plastic probe tip prevents accidental shorts
- LED light provides a visual indication of signal strength
- Able to check the polarity of many 6P2C/4P2C telephone jacks
- Adjustable volume knob and headphone jack assist in tracing wires
- Works with many other manufacturers' analog tone generators
- Includes (1) 9V battery required for operation

TET-6 Accessory Kit for TET-700 Cable Tester & Toner+
- (2) BNC to F Connector Adapters
- 50 Ohm BNC Terminator
- BNC Cable Jumper
- F Connector Jumper
- RJ45 Cable Jumper
- Belt Clip

TET-700BC Cable Tester & Toner+ w/ ABN:
- Remote terminator can be used to test network cables with ease
- Provides tone via RJ45 and BNC connectors or test clips
- Provides talk power to a telephone for testing
- Two different musical tones to choose from
- Works with our TEP-200 Tone Tracing Probe+ or others to identify cables
