Powered by the remarkable Milwaukee M12 REDLITHIUM Battery the **Milwaukee M12 Heated Axis Jacket** will be the last jacket you ever need. Built to keep you warm in frigid temperatures the carbon fiber heating element seamlessly distributes heat to the chest, back, and shoulders. 8 hours of battery life, 3 heat settings, and wind and water resistance set this jacket apart. **pg 145 ▶**

Say goodbye to the days where you had to build your own fiber installation kit. With the **Viavi Fiber Installer Kit** you've got everything you need to test, inspect, and clean optic fiber and connectors during a wireless network install. Reporting is simple, too - easily generate certification reports at the click of a button. **pg 197 ▶**

Pair the **Milwaukee USB Rechargeable Heated Gloves** with your heated jacket to experience the ultimate heated gear setup. Built to keep your hands warm without sacrificing dexterity. Featuring 6 hours of battery life, leather palms, and touchscreen-compatible fingertips, these gloves change the winter working game. **pg 145 ▶**

Testing has never been so easy - or fast. Featuring one-touch operation, automatic analysis, and a tailored OTDR user interface based on skill level this device has it all. The **Viavi SmartOTDR Handheld Fiber Tester** allows you to quickly manage data from anywhere in the network and optimize your field operations with ease. **pg 197 ▶**
